When hearing the name of Planica, we immediately think of ski jumps and the annual World Cup finals.

The event, which has outgrown the scope of mediocrity and on the wings of development and success of Slovenian national ski jumping team turned into Slovenian biggest sports festival.

During these four days, not only the best ski jumpers in the world meet in Planica. The surroundings of the ski-flying hill of Gorišek brothers turns into a socializing spot for high representatives of business, politics and show business. Many conversations begin and many bonds are established in the clubs, which are well known for their hospitality and a special atmosphere.

Therefore, we invite you to the club, which can be customized according to your needs.

We shall not be held responsible for the length of the jumps.

The background of the lower half of the image is a tunnel-like structure composed of numerous sharp, blue-tinted ice crystals or snowflakes. The crystals are arranged in a way that creates a strong sense of depth and perspective, drawing the viewer's eye towards the center of the tunnel. The lighting is dramatic, with the crystals catching the light and creating a shimmering, ethereal atmosphere.
